## MEMBERSHIP APPLICATION FORM

Once, nearly 5,000 sailing barges plied their trades around Britain's coast. Now just a still-dwindling handful survive, though cost and regulation threaten their existence. They could be carried up to five times as much, and last five times as long, as the largest trucks, with just the wind and tide to propel them. Find out about sailing barges, their past and present, and play your part in securing their future.

£30 per annum keeps you in touch; with *Mainsheet* and *Topsail* magazines, plus occasional additional publications and access to the Society's Archive at North Fambridge - by far the nation's largest collection of Sailing Barge photos and documents.
